

## Summer Opportunities in State Attorney General Offices (as of February 24, 2021)

As the states' chief legal officers, state attorneys general represent the interests of the government and citizens of their respective states. The heart of a state attorney general's mission is to serve the public interest. Through direct action and the bully pulpit, attorneys general can impact law and policy across a broad range of issues within their state and across the country. Their offices can take a variety of actions, including initiating lawsuits, proposing and supporting state and federal legislation and regulations, forming task forces, issuing guidance or formal opinions, and cooperating with their fellow state attorneys general.

Most state attorney general offices (state AGOs) have summer job opportunities for law students. Positions may be paid or unpaid. Below is a list of these opportunities in state AGOs organized by state. The following information was collected by the State Attorneys General Project (State AG Project) at ACS as a resource for ACS members. While we aim to provide comprehensive information, the absence of any state AGO from this list does not mean that opportunities are not available in other states. ACS cannot warrant that any position listed here is currently open. **This information is current as of the date of publication, but the state AGOs may change or update the availability of job opportunities, their eligibility requirements, and deadlines.** Please contact the state AGOs directly about any of these listings or other job opportunities.

For more information on state attorneys general, please visit the State AG Project website at <https://acslaw.org/StateAG>.
